Strong Appeal to the South.

LETTER OF A CONGRESSMAN, AND HIS ADVICE.

Hon. P. S. Brooks, of South Carolina, who appears to be a Fire-eater, writes, from his desk in the House of Representatives an inflamatory letter to his constituents upon the affairs of Kansas. We find it published in the Charleston *Mercury*. It is dated February 7th:

"The admission of Kansas into the Union as a slave State, is now a point of honor with the South. Every assistance which Legislation can render, was given by the last Congress, when the Missouri prohibition was repealed. What more can Southern chivalry ask of Congress? An open field and a fair fight was all that our ancestors ever asked of an enemy. Has the spirit of the sires departed from the bosoms of their sons? Shall the page of South Carolina history, which records the lofty sentiments and glorious deeds of Gadsden, of Hayne, and of Moultrie, grow pale when reading of us? And shall it be written that their blood was transmitted without their virtues? and of their spirit, that the "*grace of the fashion of it perisheth?*"

The last Congress gave to the people of the South a fair field, and the Abolitionists have thrown down the glove upon it. Who in all the South will take it up?

It is my deliberate conviction that the fate of the South is to be decided with the Kansas issue. If Kansas becomes a hirling State, slave property will decline to half its present value in Missouri as soon as the fact is determined. Then "Abolitionism" will become the prevailing sentiment. So with Arkansas—so with Upper Texas. While we are thus decreasing in political power, the North will increase. War with England is now desired by Seward, who is the most dangerous man in America. And why? To exhaust the South of men and money, and with our blood and our treasure to acquire Canada as freesoil territory; and then with freesoil power thus augmented, to reduce the South to provincial dependence. And this war would be popular. The West is always ready for war. They fatten upon it and are out of danger. War enhances the value of all their products—grain, bacon, horses, beef. Their women and children are so far in the interior as to be at all times secured, and their young men are warlike by nature. Nor would its advocates be few even in the South Atlantic States which would be devastated by the enemy.—Popular orators might be heard at every Court House in our States raising the cry, "to arms!" who move about now, as if they never heard of Kansas. May they not hear of it when it is too late.

If our State had imposed a tax of one dollar per head on each negro in the State, and applied the amount to the transportation of armed emigrants to Kansas, the people would have wrought more good towards strengthening our institutions if thus applied, than if the harbor of Charleston was crowded with steamships, and every village in the State had its armory with a cupola on the top.

The election of Mr. Banks as Speaker of our House will precipitate the Kansas issue. The Abolitionists are emboldened here and everywhere.

I venture this prediction—that in thirty days there will be a Proclamation by the President relative to Kansas; and that in sixty days afterwards there will also be a Proclamation pertaining to the same matter, by the Governor of South Carolina.

I tell you that the battle of the Constitution against Fanaticism is to be fought on the soil of Kansas.

Let our young men wake from their lethargy. Let them organize in companies in every District. A regiment of a thousand men, under the command of Maxey Gregg, if now in Kansas, would bear triumphant the flag of State equality and of constitutional liberty.

If our institutions obtain in Kansas, the slavery question is settled and the rights of the South are safe. If fanaticism prevail, we may put our houses in order to die by inches.

Let our people but understand the Kansas issue, and they will meet it with alacrity. Let them but see that every dollar expended in Kansas, and every blow there struck, is in defence of their homes and firesides, and they will come up to the mark like men. They have been confused by the thrusts at the Kansas Nebraska bill, indiscreetly made in our own State, and the taunts of squatter sovereignty. The bill is not as I would have had it in every respect, but it is a good bill for the South; for under it we can go with our property, where before we could not go. Let the theorizers forget their theories and practise what is practicable. Every dollar expended in this cause by our people, is as "bread cast upon the waters." Those of you who so see the points of the case should at once put the ball in motion. If you cannot act with much concert at first, go to work individually. Present a subscription list to every young man you meet who owns a single slave. Let others do likewise. A long step will be thus taken towards performing our [illegible] Kansas.

Col. J. D. Wilson, of our State, arrived this morning, and tells me that the people in this region are becoming alive to the issue. He has pledged himself to arm and transport five determined young fellows to Kansas at his own expense. The example is worthy of imitation, and the sentiment which produced it patriotic.

The route to Kansas is by the way of Nashville, from which point it is but six days' journey to the promised land.

I am, with warmest personal regard, and lively sympathy, with you in "Border Ruffianism."

Truly yours,

P. S. BROOKS.

Final Adjournment of the Nebraska Legislature---Closing Scenes.

About midnight on Saturday, Jan. 26th, the second session of the Nebraska Legislature adjourned, after a session of forty days, and really accomplishing but little of general good to the Territory. The closing scenes were rather rich, and really gave evidence of a total loss of dignity and self-respect. The Speaker, Mr. P. C. Sullivan, vacated his Chair at 11 o'clock, and Mr. Hail, of Nebraska City, presided during the closing scenes. The lobby was crowded to an overflowing, and so indeed was the inside of the bar, with spectators. All the vacant places were monopolized—tops of desks, chairs and everywhere were covered by spectators and members, smoking, talking, laughing, &c. A few bills and resolutions were passed, and the body then waited for the action of the Council and Governor. One member moved the House resolve itself into Committee of the Whole on the State of the Territory. Another, that the roll of the third house be called. A call was made for music. "Such is death," groans another. "Go it boots," echoes another. The The Speaker *pro tem.*, in the meantime, is reading a paper quite contentedly. The gentleman from Otoe (Morton) was resolved to be a "brick"—the brick question was called up. Some wag of a member moved a committee be appointed to inquire after, and find, if possible, the dignity of the House. The Chair decided it as useless—it could not be found. Here came a batch of laws from the hands of the Code Commissioners to be passed. One moved that they be passed wholesale. 'Twas voted bad policy, as there were several laws in the bundle punishing larceny, violation of chastity, stealing, &c., and it was feared that their constituents might not find them when time came to send them back. They voted a portion of the Code laws without examing them, and concluded to let the remainder rest.

"Mr. Speaker," shouts a member, "will a game of poker be in order." "I'm going up to the Governor," declares another, "and tell him we can't wait any longer, for we're getting dry." Another moved that the medical members of the House be required to take the pains (panes) out of the windows, and abstract the tooth of time. Some member here started the clock running at a furious rate—the crowd shout. Speeches from members were called for—Miller on "Mills," Buck on "Venison," Hover on "Woman's Rights." A committee was dispatched to the Council to inform that body—who, by the way, had a member on the floor speaking to kill time, and thereby kill an obnoxious bill—that they couldn't wait much longer; "'twan't no use to be a foolin' time with them—they wanted to adjourn," &c. In a few minutes, a second Committee was sent for the first. The Council did not pay any attention to the message; and presently a new Committee was dispatched, and Martin made the following report on his return from that body: "Mr. Speaker,—the Committee from the House below stairs have waited on the House above stairs that the House below stairs had sent us up to the House above stairs, to say that the house below stairs were ready to adjourn, whenever the House above stairs said the word; and, Mr. Speaker, what do you think the House above stairs said? Why they said the gentleman from Richardson had the floor, and so we left."

Finally, 11 o'clock came amid the general confusion. A resolution was offered thanking the Speaker for the discharge of his official duties, &c. A few "pitched into" the Speaker, called him all manner of hard names, and the resolution did not pass. The clerks and other officers, away down to the fireman, was complimented, but the persecuted Speaker couldn't get anything but abuse. "Such is life." After some little sparring, a message come from the Council saying that they were ready to adjourn, and in the confusion, I believe, the House did adjourn *sine die*. In the Council session at night nothing was done but sit and listen to a member's speech, who simply occupied the time till the adjourning hour came, to kill off some bill, which he did.

The probability is that but few of both houses will ever be returned. They passed a bill requiring the Marshal to take the census again next August, from which returns the Governor is required to base a new apportionment and publish the same—ordering the election on the first Tuesday of November, and the convening of the Legislature on the first Tuesday of December.

To Make Glossy Shirt Bosoms.—Those ladies who wish to see their "lords" wearing nice glossy shirt bosoms will do well to observe the following receipt: "Take two ounces white gum arabic, powder it in a pitcher, and pour on it a pint or more water, according to the degree of strength you desire, and then, having covered it, let it set all night. In the morning filter it carefully from dregs into a clear bottle, cork it, and keep it for use. A tablespoonful of gum water stirred into a pint of starch, made the usual way, will give to either white or printed shirts a look of newness that nothing else can restore to them after washing."

A Neglected Wife on Reading Newspapers.

To the Editors of the New York Times:

It is with extreme diffidence that I take up my pen to address you on a subject which has long lain heavily on my heart. But, Sir, as a man, a husband, a public monitor, I conjure you to excuse my temerity and calmly to listen to the sad story of my wrongs. Those newspapers! Ah, what avails my assiduous care over buttons, bosoms, collars, &c., &c.? What avail my numberless experiments in the culinary art? What avail the afternoon adornings? The morning passes in a continual brain-whirl, concocting agreeables to please his eye, his heart, his palate. The noon comes on and passes with its own demands of luncheon and siesta; the day advances and the toilet cares claim the attention. Then in all the palpitating consciousness of successful art and well-preserved charms, with the glow of expectant hope and satisfied affection, I descend to my sweet little parlor; the finishing touches are given to its cosiness; the fire burns brightly; the loose coat and slippers are duly placed near his arm-chair; the shades are raised, that the pleasant light may stream out into the darkening evening to welcome him to his home.

Mary has set the table which, though glittering with stone-ware and Brittania, instead of plate and porcelain, has a very appetizing appearance. I have been down more than once to ascertain by actual observation that all is going on well in that fountain of all home happiness—the kitchen. With book and knitting work I draw near the window that I may catch the first sound of the sleigh-bells I have learned to distinguish so truly. Hark! here they are! The gate opens, the dog barks; he is coming. To rush across the room, to pull open the door, to—ah! excuse me—suffice it to say that he gets into the parlor at last, and sits down lovingly by the fire. I examine his face and hands, to see that they are not frost-bitten, and then I "stamp," (we are too primitive to have either bells or speaking tubes; besides, our house is so small that we need only raise our voices to be heard all over it.) Mary brings up the tea, scolloped or stewed oysters, baked potatoes, cold-slaugh, or a juicy steak, a broiled chicken, a tender cutlet—something warm after his cold ride; and then the fixins—"sass," mince pie, rice pudding, to say nothing of hot jonnycake or biscuit. The idol for whom this feast is spread condescends to partake, and then—why, he puts on his loose coat and slippers, takes out the newspaper, and that's the last of him for the whole evening! With one elbow on the table, and the Times before his face, he sits buried, and the only evidence I have of his existence is from the nervous twitches he gives, as he turns the abominable sheet. "What's the news, dear; do read aloud?" After two repititions, he grunts out, "Oh, nothing; when I come to any thing interesting, I will read out!" An occasional soliloquy, an exclamation of approval or disapprobation, the reading of a part of the marine list; these are the sounds that show that he is not asleep. I sit by and knit; look, sigh, wonder and hope; rattle the back-gammon board, and yawn, until the evening is well-nigh spent—by this time he has "read the paper," and either stretches himself on the sofa to doze, or says, "Katy do you want to play?"

Is not this "to make idols and to find them clay," or rather stone, to fancy that after a hermit day at home, you are to be consoled in the evening with the society of the one you love best, and to discover that your "pardner" cares more for a miserable, not-always-particular-to-speak-the-truth-newspaper, than he does for your sweet converse and tender blandishments; that he reckons taking comfort is to paw over those senseless columns, records of men's sins and women's infirmities, calendars of the world's follies and of Nature's avengings, daguerreotypes of the fleeting fancies of the "clay-creatures" of modern vagaries! Dear Sir, pardon me—I forgot, in my excitement, that you yourself are an Editor, that you are responsible for one of these very "bones of tention;" but I mean to cast no reflections on your labors, I would by no means lay an embargo on newspapers; I am no press-censor, no autocrat that would deal out public truths in homeopathic doses. I only speak in the name of sympathising sisters. Can we not get a law passed that no one should presume to read a newspaper after certain hours, or that the men should be compelled to read aloud, in their families, such portion of the daily journals as their wives choose? This, methinks, would obviate the evil. Such a law could not interfere with your subscription list, nor with your public usefulness; you would be free from your labors at least some portion of the day; clouds would be dispersed, bitter recriminations and jealousies would be stilled, blood-thirsty thoughts would be banished; indeed, halcyon joys would once brood over the—register.

Cast aside, then, all selfish considerations; represent our wrongs in your own glowing eloquence, and, should there be one of the Editorial corps too sick, too sore, or too nervous to appreciate our movement, plead with him as a "man and a brother," to advocate one more new phase in the age's progress. Speak for us, and receive the thanks of a

NEGLECTED WIFE.

The work at the mouth of the river is now progressing quite well. The piles are driven for a distance of 115 feet, the first 80 of which are set down sixteen feet below the water level; and the remainder are driven from 20 to 25 feet deep. The second hammer has been at work for several days, and both act admirably. The weight is 3,000 pounds each, with a greatest fall of about thirty-five feet. It was a wise forethought to procure hammers of this weight, as very little could have been done with light ones. There appears to have been a stratum of formed rock, or compact gravel, underlying the surface sand which offers great resistance to the piles. The stoutest timber the country affords is frequently slivered up before passing through it. They will probably get over this formation in about thirty feet beyond their present workings, at which point the examinations show a very loose sand bottom, into which the piles will pass with great facility. A circular saw is now about fitted up for cutting off the heads of the piles. The whole apparatus including the engine and horse-power, windlasses, leaders, &c., are supported upon bents resting on the ice, and are moved forward by the engine applied to a windlass. Some five hundred piles are got out besides those already driven, a good number of which are already hauled in. They are now cutting them thirty and thirty-five feet in length.—*Lake Superior Miner.*

The California Grapes.—Among the products of California, which were found there when it came into the possession of this country, were the fine grapes which have since become better known as the Los Angelos or California Mission grapes. Some of the earlier settlers, who, it was supposed, knew something about fruit, stated they were only the old Spanish grapes, probably carried there after the invasion of the country and its possession by the Spaniards. Perhaps it is so, and that they are only old varieties, but from the more recent accounts which we have of them they appear to grow to a size far surpassing any that have been raised in European collections, for we have no knowledge of any variety producing such immense clusters as are reported to have been grown at Los Angelos.

Under the highest culture of the best English grape growers no grape but the Syrian has ever been raised to the great weight of fourteen pounds to the bunch; but it is no uncommon circumstance to find the California grapes of that weight, even under the ordinary vineyard culture. A friend writes to us, under date of August last, "it produces the largest bunches he ever saw;" he had them from one pound to fifteen pounds "each," and wishes us to name a larger one. He has the Black Morocco, the Black Hamburg and others, and he thinks, "as soon as the newness wears off, cultivators will select the Old California Mission grape in preference to others."—*Hovey's Magazine.*

Points of Difference between Orthodoxy and Unitarianism.—The Rev. Dr. Ellis, in the *Christian Examiner*, edited by him, is giving a review of Unitarianism during the last half century. He says that Unitarianism opposes Orthodoxy on three points: first, that human beings do not inherit from Adam a ruined nature—that there is no transfer from his guilt made to us, inflicting upon us a moral inability—that our relation to God has not been prejudiced by his fall; second, that whatever be the rank of Jesus Christ in the scale of being, and whatever be his nature, he is not presented to us in the Scriptures as the Supreme God, or as a fractional part of the Godhead—therefore he is not the source, but is the channel of Divine grace—he is not the object of our homage or our prayer; third, that the Scriptures do not lay the emphatic stress of Christ's redeeming work upon his death, above or apart from his life, character and doctrine—and that his death as an element in his redeeming work is made effective for human salvation through its influence on the heart and life of man, not through its vicarious value with God, nor through its removal of an abstract difficulty in the Divine government, which hinders the forgiveness of the penitent without further satisfaction.

Southern Emigration to Kansas.—On the 5th of April a regiment of volunteers from Alabama will leave Montgomery for Kansas under the command of Major Buford. The regiment will be composed of 400 men, divided into companies of 50 each, commanded and drilled by officers chosen by themselves. The outfit is to be six blankets, one gun, one knapsack, and one frying-pan. Major Buford is to pay the expenses of the regiment to Kansas, and in return the members are to acquire a preemption and pay him out of that. The men are bona fide settlers, who go to Kansas as a permanent place of residence.—*Savannah (Ga.,) Repub.*

In the Right Direction.—We are glad to learn that the Board of Supervisors, now in session, have magnanimously responded to the call of the friends of education, and directed the County Superintendent to place a copy of the Illinois Teacher into every district in the county. They also voted an appropriation of fifty dollars towards defraying the expenses of "The County Teachers' Institute." This is a long stride in the right direction. Many of the other counties in the State have followed and are following the noble example of Bureau, and we are glad to record Peoria county among them.

The appropriation for the County Institute ought to have been just double, but we are thankful for small favors. The appropriation in all amounts to about two hundred dollars.—*Peoria Transcript.*

Fashion

Ladies' Dresses.—M. de Trobriand, in the Courier des Etats Unis, speaks of a lady, now in Paris, who wears upon one dress fourteen hundred metres (a metre is over a yard and a quarter) of fringe trimming. Fourteen hundred metres!—a full mile, that is to say the dimensions of a race course! If it were not for something to attach the fringe to, the robe itself might be omitted without inconvenience. He says also, that a young lady in New York city has adorned a single dress with seven hundred and fifty yards of Ribbon!

A French woman cleans her gloves, light boots, ribbons, silks and laces, and at a cost of a few cents, and with a surprising success. They pass for new on any inspection but the closest, and are worthy to do so. A French woman never buys lining for a new gown; she cuts up her old gowns and petticoats instead. She unpicks and stitches up again, turns, irons and renews, until every inch of the stuff has served half a dozen different purposes, and there is not an unworn thread in the whole garment. A French woman is always noticeable for her clean linen, cuffs and collars always white and fresh; but then she works them herself, and thus procures another large and feminine luxury, at a small cost. It is the same with her table linen. Napkins at breakfast, napkins at dinner, and fresh table cloths or upper napkins constantly renewed.

The French woman's characteristics are generally that she is unexceptionably shod, that she wears inimitable gloves, that she has a toilet of two colors only, with a distracting way of wearing a shawl, that her manners are bewitching, full of small graces and delicately shaped coquetries, but never wanting in the nicest appreciation of external proprieties, to which her flirtations are always a subordinate; that she has a marvellous faculty of walking clean through the dirty streets of Paris, and has a marvellous knack of holding up her skirts with one hand over her left hip; that she has a supernatural preservation of youth, and a bewildering habit of mistaking her friend's husband for her own.

CITY OF CHICAGO.

Thursday Morning.........Feb. 21, 1856.

The Next Mayor of Chicago.

It is of the utmost importance that the man chosen to act for the next year as Mayor of Chicago, should have no entangling alliances with railroad companies, by which his action at the Board may be embarrassed when any questions between the city and these corporations may arise. It is not only proper but necessary that no candidate should look to any one company or to any two or three companies for active support in the canvass now going on. It is certain that corporations do not work for any man unless they know what they are working for; and when they enter the field for this candidate or that, they mean that they have an axe to grind and that the man they are pushing forward is the man that they want to help do it. We do not know that either of the candidates now in the field has any connections of a pecuniary nature with the railroad interest that centers here, or, that if either were elected, he would be a Railroad Mayor and not the Mayor of Chicago; but where that interest is so strong, it is well enough to have an eye out to the windward and see if there is not some reason why this or that man should be elected—some reason that the public does not know of.

Inauguration of a Jackson Monument.

The inauguration of a monument to Andrew Jackson, took place in New Orleans, on the 9th. There was a vast crowd in attendance. The Governor of Louisiana, the Mayor of the City, the members of the Common Council, and various other dignitaries were present. The address was made by L. J. Sigur, and Clark Mills, the artist, whose work the monument is, also spoke. To conclude all, a grand festival was given by the Marshal of the day.

This erecting of monuments to Jackson is all very well, particularly as, this time, [illegible] many of the admirers of that old chieftain and patriot, [illegible] recollections of his Administration, [illegible] member that "Young Hickory" assumes his place.

Irish Convention at Buffalo.

The Convention adjourned on the 15th, after the appointment of ten Supreme Directors, five from the United States and five from Canada, to whom conventional powers were delegated.

The country, it may be presumed, has heard the last of this scheme of Irish Catholic colonization, until a quarrel breaks out among the leaders of the movement, when the public will be deafened by their clamor after all occasion for clamor has passed away. As delegates from Illinois, we notice the names on the list of Chas. McDonnell, Patrick Hall and Rev. D. Dunn, Chicago; Rev. P. F. McElherine, Galena; Thomas Kennedy, Peoria, and Very Reverend M. O'Reilly, La Salle.

Law Reform in England.

While the people of the United States, and in particular, the people of the West, are arrogating to themselves the title of "Progressive," England is inaugurating reforms in certain parts of her polity, that the West has not yet achieved. The latest movement in the right direction made there is the reform of the Pleadings in her courts of justice. At one blow, the whole of the absurd system that here obtains, and which was borrowed from an age, when form was of more importance in jurisprudence than substance, has been stricken out, and, under the new system that is in part borrowed from the legal experience of New York, rigid simplicity and a bare statement of alleged facts, are the rule. Of course, all Red-tapedom will be astonished at the extent of the innovation, and needy limbs of the law will remonstrate at what reduces fees and simplifies the administration of justice; but a return to the old barbarisms will hardly be accomplished.

Nebraska Legislature on Women's Rights.

We have before mentioned the fact that the Lower House of the Nebraska Legislature had passed a bill permitting women to vote. We have now a letter in the New York *Times*, which gives the particulars. It is dated, Jan. 21st:

"The lower branch of the Legislature here to-day, after a spicy debate—a considerable sparring—and an interesting time generally, passed a bill which permits women the right to vote. It is an absurdity we scarce thought the body would be guilty of. It passed by a majority of four. In the Council it will, I hope, be in[illegible]. It will come up there tomorrow, the last day of the session. Many of the members talk seriously of resigning their seats to-night, rather than sit one day longer with such a set of "Woman's rights fanatics." Many voted for it, doubtless, in jest. I understand there is some prospect of fun in to-night's session, by putting a petticoat upon the Speaker. There is scarcely a lady here in favor of the bill. General Wm. Larimer, Jr., formerly of some notoriety in Pennsylvania, who, by the way, got into this body, was one of the ardent supporters of the bill. The old gentleman is in fine glee, and regards it as one of the smartest things of his life. What simpletons some men make of themselves!"

The bill was defeated in the Council, and the ladies of Nebraska must fain content themselves yet a while, with tending babies.

The Killing of Monroe.

Elsewhere in the Tribune, the reader will find the details of a horrible tragedy just enacted in Charleston, in this State. Monroe, under sentence of death for the murder of Ellington, his father-in-law, but temporarily respited by Governor Matteson, was dragged from jail, after a terrible struggle, and hung up to the nearest tree.

Beyond all common homicides, this affair, the third one of the kind in the West, within a twelvemonth, has a significance that legislators, judges, juries and governors will do well to heed. It means that the people have been long enough mocked with the administration of justice in criminal cases, and that when courts fail to inflict the penalties that the law provides, they will take this business of choking men into the next world, in their own hands! We have no excuse for the infuriated beasts who have put Monroe to death; but our censures must be mitigated by the well-known facts, that, of all criminals in this country, the murderer has the best chances of escape; and that of all trials, murder trials are the most farcical and unjust. The petty thief who steals a garment to cover his nakedness, may be summarily punished; but the assassin who kills to gratify a savage and brutal temper, or to glut vengeance long cherished, holds his life by a tenure that courts and juries will not destroy.

There is legislation demanded to remedy a state of things so lamentable as this—deep, searching legislation that will go to the root of the evil, and throw additional guards around human life, by making the punishment of him who takes it, as certain and inexorable as anything human can be. First of all, that one-man power that nullifies the charges of judges and the verdicts of juries, that stands between the crime and its penalty, that respites without reason and that pardons where pardon is a premium offered to a repetition of the offence, must be wholly rooted out or, placed under restrictions that may defy abuse.

Iowa State Agricultural Society.—Officers for 1856.—The officers of the Society for the ensuing year are:

President—Thos. W. Claggett, of Lee county.
Vice President—[illegible]
Secretary—J. H. Wallace, of Muscatine.
[illegible]
Treasurer—T. Gordon, of Muscatine.

The next State Fair, by a vote of the Board, is to be held at Muscatine, commencing on the second Wednesday of October, 1856.

Population of Massachusetts.—The State Census of Massachusetts has been completed, and from an abstract of it in the Boston papers we learn that the number of inhabitants on June 1st, 1855, was 1,133,123—an increase since 1850 of 169,408, or a fraction more than 16 per cent for the five years. The *Advertiser* says that increase has been very equally and uniformly divided over all parts of the State. The go-ahead notions of our Western States would hardly be satisfied with such practical accession of population.

Married at Last.—The Albany *Argus* and the Albany *Atlas* have been united under the name of the *Atlas and Argus*. Comstock and Cassidy are the editors and proprietors. The exact political course of the paper seems not to be generally known.

New York.—In the town elections in New York, we see from the results, that the Republicans and Anti-Slavery Softs have united against the Border Ruffian Democracy and the Pro-Slavery Know Nothings, and that the coalition has uniformly carried the day. Not only is the prestige of the Order taken away; but it is literally crushed out, in many places, by the overwhelming weight of the Anti-Slavery sentiment that it has set itself up to oppose. Know-Nothingism in the Empire State has always been the handmaiden of Slavery.

Nationality of the Slave Democracy.

No word is so much abused as that word "National." The Slave Democracy have seized upon it, and made it a cloak and a pretext for whatever of iniquity or outrage they may undertake. If the power of Congress over the matter of Slavery in the Territories is denied, and the opinions of the Fathers of the Republic are set aside, the men who arrogate to themselves knowledge of the powers of the Constitution that Mr. Jefferson did not possess, are "National," and those who are following along in the beaten track that the Fathers pursued are "Sectional" and fanatical. When it was proposed to break down the Missouri Compromise, and throw open an Empire to Slavery, the men, who passed the breach of public faith and the violation of a compact that Mr. Douglas said was akin to the Constitution, all at once, became "National," and their opponents "Sectional." Southern Aid Societies that propose to invade Kansas with armed men for the purpose of planting chattel bondage therein, are "National," while New England Aid Societies that have never yet furnished an offensive weapon, or paid the passage of an Emigrant, and that have expended all their efforts in the building of mills, churches and schoolhouses, and in laying out towns, are "Sectional," "treasonable" and eminently "devilish." Atchison and his Border Ruffians, attacking the ballot-boxes, throwing printing presses into the river, tarring and feathering unoffending citizens because they do not believe Slavery to be a divine institution, are intensely "National," and the poor Emigrants who have gone to Kansas to make homes and found a State, are "Sectional" beyond all endurance. Southern Commercial Conventions wherein the North is bitterly denounced, the Government defied, and dis-union recommended, are beyond all peradventure, "National," while gatherings of Northern men who hate Slavery and love the union, are "Sectional" to the extent of high treason, and further if possible. The men who believe that Slavery is not local—that it may go wherever the American flag floats—who are willing to over-ride constitution, laws, religion and every thing else, that it may have full sweep, are "National men." The fanatics of the North, like Chase and Sumner, who take Washington, Madison and Jefferson for their guides, and who believe that the Declaration of Independence is not a self-evident lie, (see Pettit, B. D.) and Freedom is the corner stone of our institutions, are "Sectional" and ought to be hung as high as Haman! So through the whole catalogue of the current of political differences of the day. Nationality means utter and abject subserviency to the Slave Power, and Sectionalism means only teachings and practises of the founders of the Republic.

The Great Want of the North West.

With a soil unsurpassed for richness and fertility, which, as Douglas Jerold said of Australia, "needs only to be tickled with a hoe, and it laughs with a harvest;" with a climate of rare salubrity and mildness; with untold mineral wealth hoarded up in underground chambers; with great natural water courses and unequalled navigable Lakes, on which to float its products to all markets,—what is it which this north-west yet needs upon it, to attain that lofty position of wealth and power for which it is by nature designed? The answer is a plain one. It needs men; it wants busy brains and diligent hands; it calls for farmers to break up the wild prairie sod, and tame it with cultivated fruits and grains; it lacks architects and mechanics to build the homes of civilized men through all its groves, and over all its prairie slopes, and fill them with the implements, the furniture and the taste of cultivated life; it demands chemists and engineers to bring up from their deep chambers the treasures of the mines and the quarry, and make those useless beds of stone, coal and clay, and the exhaustless veins of copper, iron, silver and gold, beneficent and generous contributors to the comfort and luxury of life. To accomplish all this, *men are needed*; human intelligence, enterprise and thought. Supply but this one want, and the north-west will go speedily forward to a height of wealth, civilization and power, which we can hardly imagine. It has been fortunate for us that hitherto this great want has been supplied by the Immigration from the Old World. The exile and the outcast from the oppression and destitution of foreign lands have been flocking to this more favored region, drawn hither by richer bounties than any other government has ever offered to the emigrant—the assurance that here labor should have its reward, and every man his equal rights. This Immigration has turned wild lands into fruitful fields, has built roads, canals and railways across the trackless prairie and through the pathless forest, has filled the wilderness with homes, school houses and churches, and, better than any material wealth, has given to all these new states a population full of energy, enterprise and hope, devoted to the great cause of equal rights and Republican freedom, and promising a higher civilization and a more just and equal social polity than the world has ever before seen. Such are some of the fruits of the liberal and enlightened legislation which the country has hitherto pursued towards foreigners; and is it possible to conceive of anything more short-sighted and self-destructive than to attempt, by narrow and intolerant laws, to drive away the men who are thus building up our wealth and prosperity.—There are no worse enemies to the North-west, than they who by bigoted and exclusive opinion or legislation are turning away from our unsettled lands the very men—the one thing which above all others—they must have. If we are to have bread to eat, and have it cheap; if we are to have lumber, and coal, and wood and stone, and have them cheap; if we are to build railroads and canals, and have them pay; if we are to make pleasant villages and large towns and cities; if we are, in short, to have the institutions, and appliances of civilization and educated society; if we wish to be rich, prosperous and great as a people, we need emigration.—Older communities may get along as they are; this new region, this undeveloped, unsettled North-west needs men; it must have them or remain forever a wilderness! What are the blind and deaf, who persecute the foreigner and build up high walls against the exiles, thinking about? If they succeed in carrying out their illiberal and unjust views, they will succeed in giving the prosperity of this country the heaviest possible blow; and all such men and all these schemes should be regarded as the worst foes to the progress and growth of the country.

A Rejected Toast.—The Worcester Spy says that at the close of the regular toasts at the recent American festival in that city, volunteers were called for from the audience, when the following was sent up to the platform, but the President declined reading it:—

Lafayette and Benedict Arnold—The one a foreigner and the other a native—the act and history of both are a lasting reputation of the proscriptive doctrines of know-nothingism.

Statistics of English and French Agriculture.—Some interesting statistics relative to the agriculture of France and England were given in a lecture delivered a few days since in Cornwall, by M. R. de la Trehonnais. In England, out of 50,000,000 acres cultivated, 10,000,000 are sown to wheat or other cereal crops, while in France 50,000,000 were cultivated for that purpose. The average growth of wheat per acre in England is 4 quarters, and in France only 1 3-5 quarters; while the produce of English land is about £3 4s. per acre, and that of France £1 12s. per acre. The number of sheep grown in each country is about 35,000,000, and the wool produced about 60,000 tons; but owing to the difference in the acreage, there is something less than 1½ sheep per acre in England, and only about ½ of a sheep per acre in France. In France there are annually slaughtered 4,000,000 of cattle, the average weight of each being 2 cwt.; while in England there is not half the number slaughtered, but the average weight is 5 cwt.

Charles Sumner.—There is one man in the Senate whose character is above suspicion, and whose conduct defies reproach, as a rising leader of the American people. That man is Charles Sumner. He is no politician. He is a statesman. He is no partisan. He is a true patriot. America will yet recognise in him the personification of herself, as an intellectual, cultivated, generous, brave nation. When he speaks on this question we expect to hear a voice nobly vindicating the right and the true, yet in such a manner as to echo the heart throbs of the peace loving and pure minded people of this entire land.—*Wesleyan.*

Recklessness.—A party of young men from our city went out on a hunting excursion last Tuesday, and, meeting with no success in killing game of any kind, they concluded to pace off the ground and fire at each other. They divided themselves into three parties, taking distances at about sixty yards from each other. When one party fired, the other pulled their caps over their faces and withstood the fire in true warrior style. One of the party had some ten or fifteen shot lodged in his cap and clothes. As fortune would have it, no one was injured, but such recklessness deserves condemnation.—*Louisville Democrat.*

New Paper.—The Tiskilwa *Independent* is the title of a new paper to be established at Tiskilwa, Bureau county, by Mr. George L. [illegible] of Peoria.

For Governor.—The Peoria *Republican* nominates Abraham Lincoln, of Springfield, for Governor of Illinois.

Letter from a Pro-Slavery Missourian.

The St. Louis *Intelligencer*, of the 19th, introduces a correspondent to its readers thus:

"We have an amusing letter to-day from a Border Ruffian—one who took his revolver and went over into Kansas to shoot a lot of "the d—d Yankees." He burnt no powder, on the occasion, and has since emptied his revolver, firing at a mark.

We vouch for our correspondent being all he says of himself—a Virginian, a slaveholder, and a citizen of a border county, almost in sight of Uncle Davy's farm."

And the correspondent himself tells his own story as follows:

"It may not be known to you, the world and the rest of mankind, that D. Atchison, a doctor or two, and one or two others who have the honor of holding, or of having held, military commissions, have given a greater stab to the permanent prosperity and future growth of the city of St. Louis than all the rest of mankind put together. Nor is this all; by their lawless and unheard of course of conduct, they have damaged slaveholders to the full extent of one-half of their slave property. These men have, by their lawless conduct, opened wide the eyes of the slaves themselves. Now they no longer "see men as trees walking." Worse than all, they have opened the eyes of non-slaveholders in Missouri, and the world over. The unholy conduct of these men, put to the "compendium of the United States census" for 1850, afford too much light for "Niggers" and such as own them not. Did they, Atchison & Co., not know that, by "sowing to the wind they were likely to reap the whirlwind?" Perhaps not one voter in thirty in Missouri, owns the leg or finger of a slave. Is not this ominous? All men know that where slavery abounds (niggered mean) it depresses white labor. It keeps down the value of lands; is discouragement to enterprise and energy; is a hindrance to Common Schools; is a draw back to internal improvements. Yet, I own them—ever did, and so did and do all my progenitors, both on the paternal and maternal sides. Mine are as valuable as those are belonging to and gentlemen in Missouri, or anywhere else; and I will defend my rights with as much vigor and pertinacity as God and my powers will enable me to do. But rather than witness such barbarous assaults and stabs, again, upon the Constitution, upon the Bill of Rights, upon order, decency, morals, virtue and religion, upon law and justice, for the sake and intent of making by force Kansas a slave State, sooner, far sooner would I see my negroes and those of all my kindred, and all in Missouri, and all in the United States, sowed up in one huge sack, a thousand mill stones fastened [illegible] the whole cast into the depths of the Pacific. I am a Virginian; and as my [illegible] I both saw and heard what I shall but faintly describe.

It has been said that the Kansas Legislature [illegible] Judges John Doe and Richard Roe, said so; that Reeder said so; that the Border Democracy, including Uncle Davy, said so; that Mr. Pierce, our Great Father, said so, or at least nodded assent. Well, how stand the facts? Missouri Democrats, some of them pretty well off as the phrase is, and numbers of others owning nor claiming a foot of land on the globe, nor a horse, cow, sheep or gun, were hired to go and do the voting, the cursing, the drinking, and other overt Democratic acts. Twenty-five of these Patriots, headed and marshaled by a God-loving and God-serving Divine, came all the way from Macon county, 150 miles, to vote. Whoever has the right to vote, has the right to be elected—then you know the balance. This sage body of Legislators moved the seat of government—to the Indian country—left Kansas for Brother Johnson's, in the Indian country; and there they passed real Democratic laws, and sent them into Kansas. Did not a certain Greek law-giver (a Spartan perhaps) give his country a code which they were not to alter or repeal until his return, and he then voluntarily starved himself to death? Well, just so did the Jackson, Van Buren, Polk, Atchison, and Stringfellow Democrats of the Kansas Legislature. They are all dead. When Brother Johnson first entered the Territory, he was (I am told) very poor, and entered, riding on an ass, and a colt, the foal of an ass. But now, who expects to hear him say, "silver and gold have I none?" Bah! he is worth his hundred thousands, and I think, two sections of land in the reserve; but Mr. Manypenny knows whether it is so or not.

But, to return; if all earth, sea and skies, assert that the Kansas Legislature was a legally constituted body, will it not be a "bare-faced lie?" Can an honest man say it?

I have been in Kansas, and can say of a truth that there are few, *very few* abolitionists there; but a large majority are for making Kansas a free State, and very many of them are not from the North or East either. They are from Carolina, Virginia, Tennessee, Kentucky and *Missouri!* Don't this show that Atchison settled his tavern bill when his host was from home? The frequent assaults made upon the persons, property and sacred rights of citizens, fill even honest republicans and slaveholders with disgust and abhorrence. The settlers in Kansas were everywhere styled ignoramuses, serfs, paupers, vagabonds, cowards, dastards and nigger stealers. I was ready to shoot them down as I would wolves at first sight. I got my revolvers ready. But I thought I would first go into Kansas and see the scamps myself. And what did they appear to be when seen and conversed with? A more industrious, neat, cleanly, sober, peaceable, orderly, well-educated and well-bred people are not to be found on the face of the earth than very many of them are. I found them to be good historians, mathematicians, grammarians, and even linguists. Some had read with profit Herodotus, Xenophon, Livy, Ovid, Homer, and Virgil, &c., &c., and were by no means ignorant of the laws of nature and nations; international law, the common law, martial law; the laws of Congress and of many [illegible]. Without drawing any comparison invidiously, there are scores of them who could make a fool of Atchison in Astronomy, Geometry, Law, Philosophy, or anything; or any art or science you could name. I could not find it in my heart to shoot one of them, merely because they could not agree that it was better for our happiness and prosperity to own slaves and not be dependant on free labor. So I left them, determined to keep my slaves and let them make Kansas a Slave State, or a free one, as they, the only rightful judges, deem best for themselves and their posterity.

The Bankruptcy of P. T. Barnum and the Jerome Clock Company.

[From the Post, Feb. 14.]

On Monday night last the creditors of the Jerome Company held a meeting in New Haven, at the law office of Mr. H. A. Cowdry. It is said that the creditors present represented only $137,000 out of $560,000 of the indebtedness of the company. After some discussion, a resolution was passed recommending the Jerome Company to go into liquidation. The next day the advice was approved, and the company made an assignment to Messrs. Anderson and Rowland of New Haven. Barnum, the same day, we believe, also made an assignment.

The assets of the Jerome Company consist of their factory and a large amount of clock machinery. The latter, in their present state, it is said, will not realize much for the creditors.

The mortgages on Barnum's country seat in Fairfield, just out of Bridgeport, called "Iranistan" and the property adjacent, amount to $125,000. The grounds compose seventeen acres, most of which is beautifully laid out as a garden, and a large mansion in the Oriental style, all of which has cost him about $150,000.

The mortgages on his property in East Bridgeport, where he owned a very large quantity of land, and where he began founding a city by erecting hotels, dwellings, and workshops, amount to $184,274 48. To connect the city of Bridgeport proper with East Bridgeport, he, a few years ago, built a handsome free bridge over the Housatonic river, at a cost of about ten thousand dollars.

The squabble about Barnum's property among the creditors, we learn, is just beginning. The New Haven people, on the petition of the New Haven County Bank, have appointed Mr. Frederick Croswell their assignee. Bridgeport, on the petition of the Farmers' Bank of Bridgeport, Mr. Henry Sandford has been appointed assignee. Each representative, it is said, claims that the other is illegally appointed, and the matter is to be settled by the State Court of Connecticut. All claims not presented within sixty days from the time the assignees make the announcent, are cut off from dividends.

Mr. Chauncey B. Jerome, the founder of the clock company, who owned $175,000 of the stock, has also been forced into bankruptcy by the Stamford Bank. He is reported to have made a voluntary assignment the day of the meeting of the creditors in New Haven.

Mr. Barnum returned from Iranistan some time ago, and took up his residence in the upper part of this city. An impression has obtained in New York, as well as in other places, that he owned the Museum building. Such is not the fact. He purchased the collection of curiosities, but leased the building to heirs of Mr. Francis W. Olmsted, for whom Mr. H. W. Sargeant, of Fishkill Landing, N. Y., is the executor.

The Museum is now, and has been for some time past, in the possession of Messrs. Greenwood & Butler. Notwithstanding this crushing weight of bankruptcy, as it is called, Barnum seems to bear the burden with spirit.

Iranistan is untenanted, all of the furniture having been removed to this city and sold.

The records in New York show that the Mortgages and judgments against Mr. Barnum's real estate amounts to $179,000, to which is added some $90,000 for confidential debts, designated in the list of preferred creditors, named in his assignment.

Tom Thumb, the foundation of his late fortune, is residing at Bridgeport, and in all probability will come to the rescue of the showman.

Singular Resuscitation in Rockford.—The *Register* gives the particulars of a singular case of resuscitation after supposed death in that city:

"A child had to all appearance died, and was laid out in its little winding sheet upon a board in an upper room, while the other preparations were going forward for the funeral. The sexton was notified and the grave also dug. Some time after, the father went into the room where the child was, and was astounded at its calling him by name, and complaining that it did not lie good. Of course the little sufferer was supplied with a better bed at once. It had evidently fallen into a trance, from which it was awakened by a hard bed and cold air."

Nantucket.—The island of Nantucket has been cut off from communication with the main land by the ice. The Nantucket *Inquirer* of the 6th inst., which with some later dates we received yesterday, announces with a large display of capitals, "*Eleven days later from America!*" the steamer Island Home having landed her mails and passengers at Quidnit. The news was important, including the election of Mr. Banks as Speaker, foreign and California intelligence, &c., &c.—*Boston Adv.*

E. E. Bush, Esq., one of the oldest citizens of Lockport, Will County, and who had been very low for several weeks, died on Saturday morning.

Awful Affair at Charleston, Ill.

MAN HUNG BY A MOB.

We learn from a traveler—Mr. Gray, of Jefferson, Mo.—that a terrible affair took place at Charleston, Coles county, Illinois, on Friday last. A. F. Monroe was in the jail at that place, under sentence of death, the day fixed for the execution being the 15th inst., Friday last. The case was a very notorious one. The individual murdered was a relative of the murderer; and a man named [illegible] became famous by making application by letter to be allowed the privilege of acting as hangman. A large crowd gathered at Charleston to see the hanging, but learned that the Governor had postponed that ceremony for ninety days. From the following article from the Charleston *Courier* of the 13th, it appears that application had been made, but that it was understood to have been rejected.

THE CONDEMNED.

On Friday last, the counsel for A. F. Monroe went to Springfield, to present his bill of exceptions to the Judges of the Supreme Court, and, if possible, obtain a new hearing for his client, or at least have the execution postponed until the 1st of May. Gen. Linder was accompanied by Hon. O. B. Ficklin, counsel for the prosecution. They returned Monday night, the counsel for the prisoner having failed in his endeavors. Thus, the last faint ray of hope has expired, and this miserable young man must expiate his crime by an ignominious death on the scaffold. For the gratification of his violent passions, and revengeful spirit, he has not only bartered his life, but entailed eternal disgrace upon his memory. He has fallen a victim to his false ideas of honor and courage. We do not make these remarks in a spirit of resentment. God forbid that we should entertain any such feeling against a man in his situation. But we make them for the purpose of warning a certain class of young men, who think it necessary that they should constantly carry arms. These men rather cultivate than curb their evil passions, and become monomaniacs, possessed of an insane desire to kill somebody—no matter who—in order that they may establish reputation for bravery. At the least insult, their hands instinctively seek the pistol or knife, as means of redress. This is not true courage, but a disease of the mind, caused by bad reading, and the unrestrained indulgence of anger and revenge. Let all such think of the felon's cell and hangman's rope that lie in the back ground, when, for a trifling insult, they contemplate robbing a fellow man of his life.

The execution will take place on the 15th. Let those enjoy it who can.

The crowd at Charleston on Friday numbered perhaps five hundred. Great indignation at the fact that the show was not to come off was expressed, and after whiskey had circulated freely for a time there was much talk of tearing down the jail and hanging the man any how. About twelve o'clock this feeling became rampant, and the crowd proceeded to the jail. There was a guard of twelve men stationed at that institution, but they allowed themselves to be driven away, and the mob [illegible] the building. The jailer's wife, however, locked and bolted the door and bade them defiance. The mob became infuriated and attacked the window of the cell in which Monroe was confined, with crow bars, axes, and sledges, and after three hours' hard work removed a bar and made a hole large enough for one man to crawl through. An individual was sent in to take the prisoner, but it was like bearding the lion in his den, for a terrible fight ensued, in which the invader was worsted. But reinforcements crept in, and Monroe was dragged out. Then there was some difficulty as to what disposal should be made of the murderer, only two or three persons being willing to take the responsibility of hanging him. But after some consultation he was tucked up to a tree where he remained until dead. It is thought that one brave and strong man could have exerted sufficient influence in the crowd to have saved Monroe, and prevented the deep disgrace which now falls upon the town and State. But that man was not forthcoming. Several of the ringleaders of the mob have been arrested.—*Cincinnati Commercial.*

Arrest of the Supposed Murderers of Basil H. Gordon.

[From the Cincinnati Commercial, 18th.]

It will be remembered that Basil H. Gordon, assistant engineer on the North Missouri Railroad, was foully murdered near Warrenton, in the State of Missouri. A full description of the circumstances of the murder, and of its supposed perpetrators, has heretofore been published in the *Commercial*. A reward of $1,300 was offered by the Governor in behalf of the State, and by the directors of the road, for the arrest of the assassins. The fact that he had been seen in company with two men up to a very limited period of his murder, was sufficiently established, and circumstances led to the inference that he came to his death at their hands. They were traced to St. Louis, from thence to Vincennes, Indianapolis, and finally to this city. Chauncey Couch, Deputy U. S. Marshal for the Southern District of Ohio, having received certain information, in company with two or three assistants, yesterday morning proceeded to the little suburban village of Carthage, and there arrested Stephen Greene, as one of the murderers. Greene was temporarily residing there in company with his wife and family. Couch called him to the door and told him he had come to arrest him. He evinced great trepidation, and turning to his wife, said, "Go into the house, Mary, I am arrested for murder." A handkerchief was found in his possession, which was identified as having belonged to Gordon, and it is said that there is no doubt but that he is one of the men for whom the officers were seeking. The man to whom Gordon's horse was traded has been found, and Greene answers perfectly to the description of the individual who traded him. He was lodged in the Ninth Street Station House, and will be brought before the Police Court this morning. Greene is well known in this city, and is respectably connected.

Diabolical Attempt to Destroy a Church.—Last night, between eight and nine o'clock, two explosions were heard in rapid succession. We learn that they were occasioned by the attempt of some malicious person or persons who placed two boxes, each heavily charged with powder, betweed the columns of the portico at the Cathedral on Walnut street, between Second and Third streets. One of the boxes, which was found afterwards, was wrapped compactly with twine and would contain a pound of powder. They were placed in the open portico, and the design probably was to blow down the pillars of the church, which might possibly have the effect of demolishing the entire front. Who the perpetrators of this outrage were is not known, but it is to be hoped they will be ferreted out and severely punished. We are glad to record that no damage was done to the church by this nefarious design.—*St. Louis Republican*, 18th.

Boys for Sale Cheap.—Very few coasting vessels ever leaves Shanghai or Ningpo without an assorted lot of boys thrown in to make up the cargo. The traffic in girles is still more general, in consequence of the prevalence of infanticide, which countenances the murder of female infants as soon as they are born. We hear, says a recent number of the Friend of China, of 100 girles ready for shipment at one place for the cigar factory at Manilla, and an order for 2000 girles at Cuba has lately been received. Boys can be sold at a profit for $3 to $3 75, and girles as low as a shilling to twenty-five cents.

A Curiosity.—We saw on Wednesday, with a great deal of wonder, at the store of Mr. Cannon, a couple of bottles, each of which would hold over a quart, and in one of which was a saw mill in operation, and in the other a flour mill, also in operation. Both mills were moved by a crank in the neck of each bottle. The bottles and machinery are in possession of Mr. A. H. Parkingham, who is in the employ of Mr. Cannon. Mr. Parkingham says the machinery was built within their covering thirty-five years ago, by a person who was then a resident of New York, but now diseased. He did it on a wager of $5,000, which he won in less than three years, which was the time allowed for the work. It has been suggested that the glass must have been blown over the machinery; but it is also said that such a thing would be impossible, with such kind of bottles. They are filled full of machinery, which is braced and pinned and otherwise made strong. The neck of each bottle is filled with a plug, which is keyed close to the neck. The mystery of getting the key, when there is hardly room between the plug and the neck of the bottle to get in a tool as big as a shingle nail, is as great as any other mystery about the ingenious affair. These curiosities may be seen by any body for a few days without any charge.—*New Haven Pal.*

The Republicans of Philadelphia, held a Convention on Thursday, nominated a list of candidates for city offices, and appointed fifteen delegates to attend the Pittsburgh Convention on the 22d.

Washington News.

NEW YORK, Feb. 20.

The *Tribune* correspondent telegraphs, Washington 19th, that there must be some mistake in the first telegraphic dispatch of the Canada's news alleging that angry words had passed between Lord Clarendon and Mr. Buchanan, and the Central American question. Neither of these parties are likely to use such arguments, besides, there has been no important correspondence between the two governments on the subject since the President's message, which would provoke opinions or actions. Lord Clarendon's speech in the House of Lords, stating that he had proposed referring this matter to the arbitration of the third power, must be a revival of the old suggestion.

No formal proposition was ever submitted to this Government; but in a conversation between Mr. Buchanan and Lord Clarendon, about a year ago, Lord Clarendon presented it as an adjustment. Mr. Buchanan replied there was only one potentate who the U. S. would in any way accept as an arbitrator, and he was Nicholas of Russia, whom England had made war with. It may be thought Lord C. has recently renewed this offer, and hence the allusion in his speech. Our administration will not now accept arbitration.

Over ten thousand copies of Senator Wilson's speech were subscribed for by the House members, before he had finished speaking. Mr. Hickman's debate on Kansas attracted favorable attention.

On Mr. Stephens motion to recommit to the committee on elections the authority to send to Kansas for persons and papers. The vote stood ayes 68, nays 67. The speaker voted no, making a tie, which rejected the motion. The committee will have authority.

A correspondent of the Evening *Post*, writes from Washington, that the final stand which Great Britain has taken upon her construction of the Clayton Bulwer treaty, has stimulated the Cabinet at Washington to take into serious consideration the means by which it may uphold the construction which they have heretofore put forth in vain. I have reasons to believe that two plans—neither of them necessarily leading to war, now occupy their attention. The first is to annul the treaty—the proposition offered in the Senate by Gen. Wilson. The second is to form an alliance offensive and defensive with Nicaragua, abrogating the treaty of 1850.

Know-Nothings in Council.

PHILADELPHIA, Feb. 10.

The American Council assembled this afternoon, Charles D. Truman, of Philadelphia, Vice President, presiding. A resolution, providing for the admission of reporters was offered, but laid on the table till after acting on contested seats. During the calling of the roll, the Louisiana delegation presented their credentials. Objections were made to the admission on ground that the Catholic test was recognized by the Louisiana Council.

A motion that the delegation be admitted on their credentials, was offered, and after a warm debate the resolution was adopted by yeas 66, nays 50. After a warm debate on admitting the contested delegates from Pennsylvania, the Council decided by a vote of 84 to 45, to admit Mr. Edie, and others who ignore the 12th section of the Philadelphia platform. The result has caused a very bitter feeling among the Southern delegates.

The National Council are engaged in the discussion of the resolution expunging the 12th section from the Know Nothing platform. No action has yet been had upon it.

Hon. Mr. Bartlett, of Ky., arrived to-day, and took the chair about 10 o'clock, the Vice President having presided up to his arrival.

A. C. Brewster offered the following resolution:

Whereas, the 12th section of the Platform of American Council, in June 1855, was neither proposed by the South nor sanctioned by the North, therefore said section be stricken out.

A. B. Ely, of Mass., offered as an amendment that after the striking out, the following should be added: and that as regards the subject of Slavery we abide by the principles and provisions of the Constitution of the U. S., yielding no more and claiming no less.

Gen. Wilson's Speech.

NEW YORK, Feb. 20.

A *Herald* correspondent telegraphs from Washington:

"Mr. Wilson occupied two hours in finishing his speech to-day, in the course of which Gov. Shannon and the Administration were severely handled. The subject was then postponed until Monday.

"The Senate then went into Executive session, and confirmed a large batch of appointments.

"The *Union* will soon publish a correspondence between Hon. Thos. R. Horton, of New York, and Hon. Albert Rust, of Arkansas, in relation to a letter written by the former, and published in a Northern paper, about the difficulty between Mr. Rust and Mr. Greeley.

A Heroine.—The last account from Oregon mentions the noble defence of a woman named Harris, whose house was attacked by a large force of Indians. Her husband was killed by the fire of the Indians, and Mrs. Harris, and her daughter, who also, was severely wounded, undismayed by the fearful odds against them, barred the door of their cabin, and loading and firing their guns, in sight of the husband and father's weltering corpse, fought the savages for eight hours, when they were relieved by the arrival of a friendly party. She killed several of the Indians, and kept up such a hot fire upon the rest as to prevent them from approaching near enough to set the cabin on fire, which they repeatedly attempted to do.

Newspaper Stock.—Three thousand five hundred dollars were offered, yesterday, for one share of the New York *Tribune*. This would make the 100 shares, into which that establishment was divided a few years ago, worth $350,000. The par value of each share is $1,000.—*N. Y. Mirror.*

ICE! ICE! ICE! OPPOSITION TO MONOPOLY. THE SUBSCRIBER HAS JUST FINISHED securing his ice for the coming season; he owns four of the largest ICE HOUSES in this section of the country; they contain at least forty thousand tons of merchantable ICE. The article will compare with any ever offered in this city, and he flatters himself by saying that No Purer, No Cleaner Ice can be delivered to this market than he is prepared to furnish, as often as to suit the convenience of his customers, at such UNUSUALLY LOW RATES, that it cannot be otherwise than give entire satisfaction. He is not to be Bought Out nor Run Off by any Monopoly, and have the public suffer the consequence of high prices; therefore, LOOK TO YOUR INTEREST! Give him your aid, and see that he is sustained in his great undertaking. Make no contract until you have the figures of the Opposition, or leave your orders at his hotel, (Lake street House,) corner of West Lake and Canal streets. F. MEHRING. feb19-3m,o22

THE ONLY MEDAL AWARDED BY THE JURY OF THE NEW YORK EXHIBITION To English or Foreign Sauce Manufacturers, has been obtained, amongst numerous competitors, by LEA & PERRINS, for their **Worcestershire Sauce.** Whereby further testimony is afforded of its being the best Sauce extant. THE CELEBRITY OF THIS SAUCE HAS extended to every quarter of the globe, and its efficacy in promoting the general health is becoming daily more observed and acknowledged. In the United States it is held to be the most agreeable condiment, and is esteemed for its tonic and invigorating properties, the habitual use enabling the stomach perfectly to digest the food. On the Continent of Europe these qualities have been testified to, by a gentleman who writes to Lea & Perrins that: "I have carried a bottle of your Worcestershire Sauce in a tour I have just completed through Spain and Portugal, and believe I owe my present state of health to its use. Your [illegible]." In India also, where it is found at the mess of every regiment, a medical gentleman writes from Madras to his brother in the same profession, at Worcester, in the following terms: "Tell Lea & Perrins that their Sauce is highly approved in India, and that it is, in my opinion, the most palatable as well as the most wholesome sauce made." This Sauce is suitable for every variety of dish, and the universal demand which its excellence has created, has led to many imitations being offered to the public, under a variety of names, but the genuine may be known by the name of "LEA & PERRINS" being impressed upon the bottle and on the labels and wrappers. Mrs. Caroline Lee Hentz. WE HAVE IN PRESS, AND SHALL publish on the 28th of February, one of the most brilliant and fascinating Works which has ever been published in this country. It is from the gifted and elegant pen of one of America's choicest writers—Mrs. CAROLINE LEE HENTZ—a lady who needs no flourish of trumpets to herald her fame, for she has established a world-wide reputation years agone. We may say, however, that in this new Work she has not only sustained her previous high reputation, but she has achieved a victory, and reached a literary standpoint far in advance of any of her previous efforts. So say all who have examined the manuscript, and we doubt not that this will be the verdict of the critics, when the Book shall appear. The scenes are drawn in part from fashionable life in Boston and New York. ERNEST LINWOOD, is the euphonious title which Mrs. HENTZ has chosen for this new and charming emanation of her genius. It will be comprised in a handsome 12mo. volume of about 450 pages, price $1,25, with our usual discount to the trade. Booksellers are most respectfully requested to forward their orders at an early day. JEWITT, PROCTOR, & WORTHINGTON, Publishers, Cleveland, Ohio. J. P. JEWETT & CO., Boston. For sale by Booksellers generally. feb8-o72-tf

J. H. THOMPSON'S POMADA OPTIME AND LIQUID HAIR DYE.—J. H. Thompson, author of "Anatomy of the Skin," "Diseases of the Hair and Skin," &c., begs to call the attention of the American people to the above celebrated articles for the toilet.

THE POMADE OPTIME

is an entirely new preparation for the Hair. It contains no article used by any other manufacturer of any compound for the hair. It contains no coloring matter or essential oils. Its splendid perfume is obtained by digesting the flowers of the Rose, Verbena, and Heliotrope, with the articles of which the Pomade is composed. By this process it will retain its magnificent scent any length of time in any climate. As an article of utility it has no rival. It will keep the skin entirely free from any unhealthy accumulation or dandruff. It excites the oily and coloring secretions of the hair, and will restore and keep them in a healthy condition—thus preventing their falling off or turning prematurely grey. Ladies using this Pomade require to use no bandoline or hair; for if the hair is thoroughly cleansed before applying the Pomade, the head will not soil the most delicate fabric with which it may come in contact.

TESTIMONY OF MISS LOUISA PYNE.

"New York, Sept. 25, 1854.

"Mr. J. H. THOMPSON—Dear Sir: Please forward me six jars of Pomada Optime, same as you last sent. Let it be packed for traveling. I find my hair has much improved since using your preparation, and has entirely ceased falling out. If the present improvement continues, I shall pronounce your Pomade one of the most valuable and delightful compounds for the hair, and not only continue to use it myself, but recommend it to my friends.

"I am, dear sir, yours truly,

"LOUISA PYNE."

CERTIFICATE OF DR. CHILTON.

"Being acquainted with the composition of the 'Pomade Optime,' as manufactured by Mr. J. H. Thompson, I can state that the article is well calculated to improve the growth and appearance of the hair,

"JAMES R. CHILTON, M.D., Chemist.

New York, June 8th, 1854."

Price, 25 cents, 50 cents, and $1.00 per bottle; family jars $2.00.

J. H. THOMPSON'S INSTANTANEOUS LIQUID HAIR DYE.

This dye is, without any exception, the best ever manufactured. Nothing sold in America or Europe, of any other make, will bear the least comparison with it. The proprietor publicly guarantees that it will dye red or grey hair to any shade of brown or black in one minute, and that so long [illegible] the hair remains upon the head it will not fade or change color. It differs from all other dyes in its effect upon the fibres of the hair, as, instead of making the hair harsh, it renders the most stubborn, pliant and tractable. It is beautifully scented with violet, and will not stain the skin. The following is the

CERTIFICATE OF DR. CHILTON.

"Having examined the Hair-Dye prepared by Mr. J. H. Thompson, I can recommend it as being properly prepared and well calculated to answer the purpose for which it is intended;

JAMES R. CHILTON, M. D., Chemist.

This certificate, from a scientific gentleman so well known as Dr. Chilton, renders the publication of any other certificates unnecessary, as it is a sufficient guaranty of the genuineness of the article. Sold wholesale and retail, by

A HARMLESS AGUE REMEDY IS A PUBLIC BENEFACTION.—See what the PRESIDENT of the PHARMACEUTICAL SOCIETY of MISSOURI says of RHODES'S FEVER AND AGUE CURE, or Antidote to Malaria:

ST. LOUIS, MO., Nov. 10, 1855.

Having noticed the certificate of chemical analysis given by the celebrated chemist, Dr. J. R. Chilton, of New York City, in favor of Rhodes' Fever and Ague Cure, that it contained neither Quinine, Arsenic, Mercury or Strychnine, and having received numerous applications for it, I was induced to send to Mr. Rhodes for the medicine. Since then I have disposed of a large quantity, mostly to residents of this city, who have invariably been cured by it, and to whom I can refer. I am, therefore, satisfied in recommending it to be all that the proprietor represents.

WORCESTER'S NEW DICTIONARY.

ROYAL OCTAVO, 565 PAGES.

SOLD AT THE LOW PRICE OF $1.75.

THE BEST AND CHEAPEST DICTIONARY of the English Language, for constant and daily use, and no family should be without it. It is not only a Pronouncing and Synonymous Dictionary; but it contains an Appendix, with

1. Pronunciation of Greek and Latin Proper Names.
2. Pronunciation of Scripture Proper Names.
3. Common Christian Names, with their signification.
4. Pronunciation of Modern Geographical Names.
5. Abbreviations used in Writing and Printing.
6. Phrases and Quotations in Latin, French, Italian and Spanish.
7. The Principal Deities and Heroes in Greek and Roman Fabulous History.

The great and crowning feature of the work, however, is the synonyms, arranged in connection with the definitions. Very few of our best writers are so thoroughly masters of their native language as never to experience embarrassment in searching after a fit expression, and it is to help to repair this difficulty, that Dr. Worcester has introduced a short exhibition of synonymous terms. Take for example the following words:

A-BAN-DON, v. a. To give up to with a breaking; to desert; to leave; to relinquish; to resign; to cease to use; to abdicate; to surrender; to forego.

[illegible]

This is deemed will suffice to show the very great benefit one may receive by having this Dictionary at hand, when engaged in letter writing; for, with it every man will be able to [illegible] the just and proper expression of his thoughts.

Worcester's Dictionaries are highly commended by most of the prominent literary men in the country. They are made the STANDARD AUTHORITY in "ORTHOGRAPHY AND PRONUNCIATION, in the Public Schools of Boston, Cambridge, Baltimore, Washington, D. C., Buffalo, Schenectady, Rochester and many other principal cities throughout the United States; and, in addition to this testimony, they have recently been adopted as [illegible] by the Inspectors of the Public schools of the city of Chicago.

DAILY TRIBUNE

LOCAL DEPARTMENT.

WILLIAM W. PECK........................EDITOR.

Thursday Morning,..........Feb. 21, 1856.

RUSH MEDICAL COLLEGE COMMENCEMENT.—The annual commencement of the Rush Medical College was held yesterday evening at Metropolitan Hall, and the proceedings were of a most interesting character.

A large audience, among which were many ladies, assembled at the Hall at an early hour, and at about 8 o'clock the students, preceded by the Faculty and a band of music, entered the hall and occupied the seats upon and in front of the platform, which had been reserved for them.

After an overture from the band, the chaplain pronounced a prayer, and the conferring of the degrees upon the graduates, was commenced. Each graduate was called by name, and came forward to receive his diploma. After another overture by the band, Prof. W. B. HERRICK, of the Faculty, proceeded to deliver the Valedictory Address. The subject of his discourse was a history of the Esculapian art from the earliest ages, and to term it a finished, instructive and eloquent production, were faint praise. We regret that we are unable to give it entire in our issue of this morning, but we learn that it is to be published entire in the papers of the city.

After the delivery of the address a benediction was pronounced by Rev. Mr. SHIPPEN, and the Faculty, Graduates and invited guests adjourned to the Briggs House to partake of a handsome *déjeuner* served for the occasion by Messrs. Floyd & French. Everything that could please the palate or tempt the appetite was furnished forth and the banqueters enjoyed the innumerable good things with a zest that was evidently real.

The entire proceedings passed off most acceptably, and at a late hour we left the company enjoying a feast of reason and a flow of soul that lasted, we know not how long.

There were some fifty graduates this year which speaks well for the prosperity of the institution, and the estimation in which its advantages are held by the people of the West.

THE GREAT DEPOT READY.—This week the passenger trains of the Illinois Central, Michigan Central, and Chicago & St. Louis roads will run into the new passenger depot of the Illinois Central. Freight is accumulating to such an extent on the side tracks of the roads, that the freight depot now used by these companies for their passenger trains, has to be given up to its legitimate use. A sufficient number of tracks has been put down, temporary ticket offices, and a permanent baggage room built in the new depot; gas pipes are in, and it only remains to hang the lamps, and fix the switches to turn the immense trains into this the most extensive and wonderful passenger depot on this continent. Only a year or two ago the deep and clear waters of Lake Michigan rolled where now stands this great building. Great is "the Universal Yankee Nation."—*Journal.*

C. L. G.—The Chicago Light Guards, to the number of forty-eight, left last evening, via the Michigan Central Railroad, for Cincinnati, to take part in the Anniversary of Washington's Birthday, which will be celebrated by the Cincinnatians and their guests in the grandest style ever known in the West. The Guards of New York, Cleveland, Buffalo, Louisville, &c., will participate in the celebration. We are sure our favorite Guards will compare favorably with the best corps in the country, and we question if any will claim more attention in the Queen City. They are an honor to our city, we feel a pride in them, and we wish, in common with our citizens, the Chicago Light Guards a most pleasant trip and well-earned laurels.

FAIRLY SOLD.—Cook, of the Niles *Republican*, has been sold out by a lady correspondent tremendously. She asked the insertion of a very neat piece of poetry, which he granted, and put the same into his editorial columns. It is signed "Citsorca." Reverse the signature and you have *Acrostic*; take the hint and read down the poem, and you have "D. B. Cook is the Prince of Asses." And that in his own paper! The whole community are grinning, and our country brethren generally are "pitching into" the poor fellow after he has been so badly taken down. That was pretty fair of its kind.

A THAW! A THAW!—The ice king relented a little yesterday and blessed our ice-enveloped city with an atmosphere more congenial than congealing, and a thaw that rejoiced all the shiverers. The snow heaps lying all about were considerably diminished, giving some hope that they will ere long disappear. We hope they will, for we have been surfeited with snow and are tired of its very sight.

The sleighing in the city, save on the ice in the river, is pretty much gone, and another warm day will finish it.

ROBIN'S NEST.—Bishop Chase used to travel about the west, in early times, to officiate among his Episcopal brethren. He lived in a snug log house in one of the new towns of Ohio. When on his visits, his friends had often heard him speak of his "Robin's Nest," without exactly understanding him, till once our informant asked what he meant. His reply was, his house—"it was made of sticks, plastered together with mud, and filled with young ones." It is a beautiful answer.

GOOD TIME.—Now that we are having such nice "thawy" weather would it not be a good time to have the snow and ice cleared from the sidewalks? It can be easily done now and would be a vast addition to the comfort of pedestrians. Cannot the Street Commissioners wake up just once before their terms of office expire and do one good at least? Come Messrs. Commissioners suppose you try the thing and see how it will work?

CHICAGO HIGHLAND GUARD.—This excellent company commanded by Captain McKay, will make their first appearance on the 22d. We understand that the Governor intends to constitute them his body guards, and also present them with the colors of their regiment, on the coming anniversary. They give a grand ball in the evening at Metropolitan Hall, where arrangements have been made to give the guests a real Highland welcome.

REFORM SCHOOL—VISITING DAY.—We learn that the Board of Guardians have set apart Friday of each week as the day upon which visitors will be admitted to the Reform School. On no other day of the week will visitors gain admission to the grounds or buildings of the institution without a written permit from the Superintendent or one of the Board. Those intending to pay the institution a visit will bear this in mind as the rule is to be strictly enforced.

EMETICS.—Emetics will become the fashion henceforth among all who are ambitious of intellectual reputation. Rogers, it seems by his *Table-Talk*, was once assured by Lawrence, that Burke shortened his life by the frequent use of emetics—"he was always tickling his throat with a feather." He complained of an oppression at his chest, which he fancied emetics would remove.

IRVING HOUSE, N. Y.—They say that the Irving House will cease to be occupied as a hotel after the 1st of May next. The lower part will be converted into stores. Mr. Burroughs, who formerly kept the Irving, has leased the "Lafarge Hotel," opposite Bond street, and is engaged in fitting it up. The rent is said to be $26,000 per annum.

Y. M. A. LECTURE TO-NIGHT.—The next lecture before the Young Men's Association will be delivered in Metropolitan Hall this evening by Bishop CLARK, of Connecticut. Subject—"Form and Force."

Bishop Clark is one of the ablest and most eloquent divines in the country, the which is an ample guaranty that what he may say will be both instructive and interesting.

WASHINGTON'S BIRTH-DAY!—There will be a meeting of the ladies and gentlemen of Chicago, at West Market Hall, on (this) Thursday evening, the 21st inst., at 7 1-2 o'clock, for the purpose of commemorating the Birth of George Washington. Addresses will be made, appropriate National Hymns will be sung. All are invited to attend. Admission free.

KNOW SOMETHINGS.—It seems from an advertisement in to-day's paper that the "Know Somethings" are going to have a hand in the coming municipal elections. Who are the K. S.'s? Who knows something about them, and will tell it?

☞ Thanks to Ross, Jones & Toucey, for Frank Leslie's New York Journal for March, and Godey's Book for the same month. All the latest magazines are to be procured at their stand corner of Clark and Lake streets.

A Card.

REV. CHARLES P. BUSH, recently of Norwich, Ct., has become the Local Editor of the New York *Evangelist* for the West. His office is at No. 16 La Salle street, the same with that of the *Christian Times*, where he will be happy to see all who have business with that paper, or any who may wish to subscribe for it.

It is the intention of the proprietors of the *Evangelist* to commence at once a *Western Department* in their paper, according to the terms of agreement with the proprietors of the late Chicago *Evangelist*, and they hope to make their sheet combine the advantages of an Eastern and Western Religious Journal in one. They intend that the religious interests of the West shall be fully represented through its columns, and they hope thereby greatly to extend its circulation and usefulness in all this region.

The names of new subscribers will be gladly received by the Editor at Chicago. Address Rev. C. P. Bush, Evangelist Office, Chicago.

THE LOCAL EDITOR.—We do not often puff ourselves, our readers will bear us witness, but the following is so good that we give it a place. It is from the Cincinnati *Commercial*. We do not hesitate to say that it requires as much judgment and tact to popularly and honestly conduct the Local Department of a paper, as of any other, and we imagine that this class of professionals would be more highly esteemed if they took a more decided stand to adhere firmly what is right, and thus insisted upon and maintained the dignity of their office:

"Local editors are among the most genial, clever fellows in the world; always eager for the latest items, and untiring in their laborious profession. They are generally well informed, obliging and courteous. There may be exceptions, but, as a general rule, they are thoroughly acquainted with municipal affairs and local interests, and would blush to evince such ignorance of general politics and history as leading editors sometimes exhibit. The leading editor is often a lawyer or doctor, who can't live by his profession, and whose knowledge was mainly poured into him during a collegiate course; but the local editor is a self-made man. He may sometimes lack book learning, but he has studied men and manners well; he has seen the world; he has mingled much in society; he knows what is going on, and has a clear vision of the past; he can skillfully tell a story so as to conform to the tones of the paper for which he writes; yet by an "if," or a "but," can enter his modest protest. His sympathies are generally with the truth and the right; he glories in a big item, and is less concerned about its moral character than he is to its effect in attracting attention; but nothing pleases him better than to excoriate vice, or to expose official stupidity. Deprived of social pleasures, local editors have free access to all places of amusement, lectures, concerts, sermons, and meetings; and constantly invited to drink by those who have their good will, it is strange that they are scarcely ever slaves to liquor. Few persons have any idea of the amount of labor that locals perform. They are at work from eight or nine o'clock in the morning until from twelve to two at night; and during all this time, are either in pursuit of items, or are busily engaged in writing them out. They take a great deal of open air exercise, and this renders their business the most beautiful about a newspaper. For the labor they perform, they are generally poorly paid; but they rarely complain; and philosophically wait for something better to turn up."

LAW SCHOOL

OF THE

UNIVERSITY AT CAMBRIDGE, MASS.

THE INSTRUCTORS IN THIS SCHOOL are—

Hon. JOEL PARKER, LL.D., Royall Professor.

Hon. THEOPHILUS PARSONS, LL.D., Dane Professor.

Hon. EMORY WASHBURN, LL.D., University Lecturer.

The course of instruction embraces the various branches of the Common Law; and of Equity; Admiralty; Commercial, International, and Constitutional Law; and the Jurisprudence of the United States. The Law Library consists of about 14,000 volumes, and as new works appear they are added, and every effort is made to render it complete.

Instruction is given by oral lectures and expositions, (and by recitations and examinations in connection with them,) of which there are ten every week. Two Moot Courts are also holden in each week, at each of which a cause, previously given out, is argued by four students, and an opinion delivered by the presiding Instructor. Rooms and other facilities are also provided for the Club Courts; and an Assembly is held weekly for practice in debate, and acquiring a knowledge of parliamentary law and proceedings.

Students may enter the School in any stage of their professional studies or mercantile pursuits, and at the commencement of either term, or in the middle, or other part, of a term. They are at liberty to elect what studies they will pursue, according to their view of their own wants and attainments.

The Academical year, which commences on Thursday, six weeks after the third Wednesday in July, is divided into two terms, of twenty weeks each, with a vacation of six weeks at the end of each term.

During the Winter vacation, the Library is opened, warmed, and lighted, for the use of the members of the School.

Applications for admission, or for Catalogues, or any further information, may be made to either of the Professors at Cambridge.

Slaughtering and Packing.

Several statements have appeared in the papers of hogs packed in Terre Haute, and at Durkies' Ferry, which in some of the details are said to be inaccurate. The aggregate however, is correctly stated at 48,562. Of this number, however, it is proper to state, about 6,000 are frozen and still uncut in the several houses. Besides, and in addition to the above, about 6,000 hogs slaughtered in this place, have been shipped east, before being packed, and not counted in the above estimate of packing. This would make the aggregate of the hog business of our place 54,562.

BEEF AND SHEEP.—In addition to the above business, may be named 4,041 cattle and 2,615 sheep, slaughtered, packed, and rendered, at the house of Williams & Co.—(Terre Haute Courier.

VESSEL SALE.—The schooner Odin, of this port, has been sold by J. Thorson to J. M. Brown, of Waukegan, for $10,000. She goes into the lumber trade.—(Milwaukee Sentinel.

PROFESSOR WOOD'S

HAIR RESTORATIVE,

IS NO DOUBT THE MOST WODERFUL discovery of this age of progress. The following is from a distinguished member of the medical profession:

ST. PAULS, January 1, 1856.

Prof. O. J. WOOD—Dear Sir: Unsolicited I send you this certificate. After being nearly bald for a long time, and having tried all the Hair Restoratives extant, and having no faith in any, I was induced, on hearing of yours, to give it a trial. I placed myself in the hands of a barber, and had my head well rubbed with a good stiff brush, and the Restorative then applied and well rubbed in, till the scalp was all a glow. This I repeated every morning, and in three weeks the young hair appeared, and grew rapidly from August last up to the present time, and is now thick, black and strong—soft and pleasant to the touch, whereas before it was harsh and wiry, what little there was of it, and that little was disappearing very rapidly. I still use your Restorative about twice a week and shall soon have a good and perfect crop of hair. Now I have read of these things—and who has not?—but have never seen hitherto any case in which any person's hair was really benefitted by any of their hair tonics, &c., of the day; and it really gives me pleasure to record the result of my experience. I have recommended your preparation to others, and it already has a large and general sale throughout the Territory. The people here saw its effects and have confidence in it. All who have used it here will consider with me in what I have written. The supply you sent us, as the wholesale agents for the Territory, is already exhausted, and daily inquiries are made for it. You deserve credit for your discovery. I for one return you thanks for the benefit it has done me, for I certainly had despaired, long, long ago, of ever effecting any such result. I congratulate you that your fortune (and a large one) is already made.

Yours, hastily, J. W. BOND,

Of the Age.

MR. KENNEDY, OF ROXBURY, HAS discovered, in one of our common pasture weeds, a remedy that cures EVERY KIND OF HUMOR, from the worst Scrofula to a common Pimple.

He has tried it in over eleven hundred cases, and never failed except in two cases, (both thunder humor). He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two or three bottles will clear the system of boils.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruptions of the skin.

Two or three bottles are warranted to cure the worst cases of ringworm.

Two to three bottles are warranted to cure the most desperate case of rheumatism.

Three to four bottles are warranted to cure salt rheum.

Five to eight bottles will cure the worst case of scrofula.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

Nothing looks so improbable to those who have in vain tried all the wonderful medicines of the day, as that a common weed growing in the pastures, and along old stone walls, should cure every humor in the system; yet it is now a fixed fact. If you have a humor, it has to start. There are no ifs nor ands, hums nor ha's about it suiting some cases and not yours. I peddled over a thousand bottles of it in the vicinity of Boston. I know its effects in every case. It has already done some of the greatest cures ever done in Massachusetts. I gave it to children a year old; to old people of sixty. I have seen poor, puny, wormy looking children, whose flesh was soft and flabby, restored to a perfect state of health by one bottle.

To those who are subject to a sick headache, one bottle will always cure. It gives great relief in catarrh and dizziness. Some who have been costive for years, have taken and been regulated by it. Where the body is sound, it works quite easy, but where there is any derangement of the functions of nature, it will cause very singular feeling, but you must not be alarmed—they always disappear in from four days to a week. There is never a bad result from it. On the contrary when that feeling is gone, you will feel yourself like a new person. I heard some of the most extravagant encomiums of it that man ever listened to. No change of diet is necessary—eat the best you can get. I have likewise an herb, which, when simmered in sweet oil, dissolves Scrofulous swelling of the neck and under the ears. Price 30 cents.

DIRECTIONS FOR USE.—Adult, one table-spoonful per day. Children over eight years, desert-spoonful; directions can be made applicable to all constitutions, take enough to operate on the bowels twice a day.

MR. KENNEDY gives personal attendance in bad cases of Scrofula.

Wholesale Dealers in Chicago.—Brinckerhoff & Penton, J. H. Reed & Co., Ray & Baldwin, F. Scammon & Co., Sawyer, Paige & Co., Barclay & Brother.

N. B.—Those desirous of investments in Real Estate will find good bargains at our office. Also, particular attention paid to buying and selling Produce, Provisions and Merchandise.

A RARE CHANCE FOR A FARM.—ANY Person desiring to purchase a Farm in the West, cannot do better than to go and see a Farm of 80 acres, situated in Racine County, State of Wisconsin, being twelve miles N. W. of the city of Racine, and sixteen miles S. W. of the city of Milwaukee, both of which are important Shipping Ports, and best markets in the West for Produce.

Said Farm has about 100 acres, under the plough, and the balance in meadow and pasture lands, with 20 acres of timber. It has a fine stream of never failing water, running directly through, and several fine springs of water, equal to one in every field.

There is a good farm house, and two good barns and first rate fences made of oak rails upon the farm. The Society is as good as can be found. There is a good school within half a mile, and two churches within two miles.

It is said by those best acquainted in the neighborhood to be one of the best farms in Racine County.

There is no exaggeration in the statements here made, and there is not the least doubt about its being one of the most profitable investments in Wisconsin.

The terms can be made quite easy, with a small payment in advance, and balance for nine years, if desired.

Any person wishing to see the farm can get further information, by calling on Clark & Pickering, 8 Wells street, Chicago; or H. Warner & Co., 123 Main street, Racine.

LIFE AND DEATH;

—THE—

Mysteries of Disease laid open to the People.

Health is the Principle of Life; Disease is the Principle of Death.

THE R. R. R. REMEDIES POSSESS THE GREAT POWER TO SECURE TO THE HUMAN SYSTEM HEALTH AND LONG LIFE, AND TO FREE THE HUMAN FAMILY FROM PAINS, ACHES, AND ALL BODILY INFIRMITIES.

THE ART OF PRESERVING HEALTH AND THE METHOD OF CURING DISEASE BY THE R. R. R.'S

Radway's Ready Relief,

Is to be used in all cases where there is pain. The moment it is applied externally, or taken internally, it will allay the most torturing aches, pains, cramps, spasms, burns, scalds, &c., quicker than Morphine, Chloroform, Veratrine, or any other anodyne or remedy that has ever been used by medical men.

It is safer than these dangerous remedies. The public will bear in mind that Chloroform, Morphine, Opium, &c., only stifle the pain by stupefying the senses, [illegible]

Radway's Ready Relief stops the pain, and removes the cause of the disease that occasions it; it infuses new life into the weak and diseased parts. [illegible]

As a counter irritant, Radway's Ready Relief applied to the surface of the body, where there is inflammation or congestion, it will instantly scatter the congested blood, equalize the circulation, and in a few minutes the most excruciating pains are removed. This may be seen in cases of Lumbago, Gout and Rheumatism, in their most terrible forms, where an application of Radway's Ready Relief will restore the patient to ease and comfort.

Crippled with Rheumatism, Arm and Leg perished—No hopes of his recovery—Timely use of R. R. R.—A wonderful Cure.

LETTER FROM ISAAC HUDDLESTONE.

Rapids Parish, La., June 10th, 1855.

Messrs. Radway & Co.—Radway's Ready Relief has cured Peter May of Rheumatism, when there was no hope of his ever recovering. I heard of his situation, and sent for him. His right arm and leg was all perished. He had no use of them at all; but by the use of your medicine, in two months he was carrying the mail from Cherryville to Burr's Ferry, [illegible] He is now well, and is working on his farm, and the whole cost of his cure for your medicine was five dollars.

ISAAC HUDDLESTONE.

Radway's Regulators.

We here direct the attention of the public to our newly discovered remedy—RADWAY'S REGULATORS; they possess the great curative powers of a Purgative, cathartic, aperient, sudorific, antidyspeptic, corrective and Regulator of the system. They are in fact the only perfect purgative or cathartic remedy that has ever been discovered or given to the world.

Radway's Regulators will answer a better purpose than Calomel or Mercury, without entailing on the system the terrible injuries of these baneful drugs.

They are in the form of Pills, elegantly coated with gum, perfectly tasteless, and can be taken without sickening or nauseating the patient. They are to be used in all cases when the system is OUT OF ORDER, or under the influence of disease. One or two doses of Radway's Regulators has frequently checked the progress of the most terrible diseases and restored the system to health and regularity.

They establish new and improved principles of medicine, and secure the great and important power of regulating to a healthy, natural and harmonious action, each and every organ in the body. This grand controlling power has never formed any part of the properties of the popular Cathartic, Vegetable or Indian Purgative Pills, that have ever been in use.

Radway's Regulators rid the system from disease and restore the human body to health, on an entirely different principle to the weakening, sickening, and griping method of the common cathartic and purgative pills.

One or two of Radway's Regulators will remove the cause that occasions pain or sickness, or an irregular or unnatural action or condition of the organs of the body, quicker, more effectual, and with less trouble to the patient than six or ten of the common cathartic or purgative pills. The moment Radway's Regulators are taken into the system afflicted with disease, their equalizing efficacy begins; they search out the elements of disease wherever it may be seated; they act upon the whole surface of the intestines and bowels attracting the foul and morbid humors from the blood, glands, secreting vessels, and expelling these seeds of disease from the body, restoring a healthy and regular action to the Liver, Bowels, Pancreas, Heart, Kidneys, Bladder, Skin, and all other Viscera.

THE BOWELS.

All of the common pills of the day, called Vegetable, Indian, Cathartic, &c., claim that they cure disease by purging from the bowels. This is as far as they go—they act upon the bowels by irritating the mucous membrane, and thus obtain an evacuation in the same manner as the bowels are moved by eating something that disagrees with the system. This is truly an unnatural method of restoring the system to health, by swallowing pills that disagree with and irritate it. Those who have taken these common pills are well aware of the weak and debilitated condition their systems are left in. After the scouring operation of these drastic purgatives is over, the bowels are sore and feeble, and again become costive and bound up. Hence arise dyspepsia and a host of diseases. Radway's Regulators never leave the bowels in a costive condition, or occasion pain or weariness in their operation.

No. I.

Diseases and complaints caused by Exposure and Atmospherical Changes, over which Radway's Ready Relief and Radway's Regulators possess the most remarkable curative powers, and which will readily yield to the R. R. treatment.

COLDS AND FEVERS.

When the system is first seized with a sudden cold, or a fever sets in, a dose of from three to six of Radway's Regulators should be taken [illegible]

VOL. IX

THE CHICAGO DAILY TRIBUNE,

PUBLISHED

BY WRIGHT, MEDILL & CO.,

In the Tribune Buildings, No. 45 Clark Street.

TERMS OF SUBSCRIPTION:

Daily delivered in the City, by Byron E. Dye, for $6.00 per annum, payable quarterly, in advance, or 12 cents per week, payable weekly to the Collector.

Daily by mail, $7.00 per annum if paid in advance, but $8.00 if credited; for six months, $4.00 in advance; three months, $2.00 in advance.

The CHICAGO TRI-WEEKLY TRIBUNE is published Tuesdays, Thursdays and Saturdays, in time for the earliest Morning Mails. It is of the same size with the large Morning Daily, and contains all the reading matter of two days. It is an excellent edition for residents in the country. It will be furnished to mail subscribers at the low price of $4.00 a year in advance, or six months for $2.00. Delivered to City Subscribers at $5 per year, or 10 cents per week, payable to the Carrier.

The WEEKLY TRIBUNE will contain very full and correct Market Reports, prepared with scrupulous care and exactness.

TERMS—$2.00 per annum, invariably in advance. Five copies for $8.00, ten copies for $15.00, and twenty copies for $25. Money may be sent at our risk.

Byron E. Dye is authorized to collect all subscriptions for the Daily Tribune, in this city.

Country weekly newspapers can receive our Daily in exchange by paying a difference of five dollars per year, in advance, and our Tri-Weekly, by paying two dollars, in advance. To exchange with our friends in the country who solicit us to do so, would impose an unreasonable tax upon us, and we are therefore compelled to make a charge sufficient to protect us from actual loss.
